# MATÍAS AGUSTÍN CÁCERES

## Software Developer

Buenos Aires, Argentina | +54 9 11 6920 9880 | matiasagustincaceres@hotmail.com | Online CV | LinkedIn

## PROFESSIONAL SUMMARY

Software Engineering student at UBA with professional experience as a Full-Stack and Packaged App Developer at companies like Accenture and Penta Consulting. Specialized in designing scalable applications, enterprise integrations, and modern software solutions. Driven by continuous improvement and collaborative teamwork, I am eager to bring my technical background to dynamic and innovative environments.

## PROFESSIONAL EXPERIENCE

**Packaged App Development Analyst** — **Accenture | Oct 2023 - Present**

Working within agile Scrum methodologies, I gained solid experience across the entire development lifecycle cooperating directly with Product Owners and functional teams from requirements gathering to final delivery. Responsible for researching productivity tools and exploring Artificial Intelligence integration for automated task optimization.

- **BTP Integrations:** Design and maintenance of system integrations using SAP Integration Suite under SOA principles. In charge of sector developments (maintenance tasks and new functionality implementations), providing QA test support, and conducting technical onboarding for new team members.
- **BTP RAP:** Fiori application development using ABAP RESTful Application Programming Model (RAP) and building optimized database queries for service presentation and information management.

**Full-Stack Developer** — **Penta Consulting | Oct 2022 - May 2023**

I specialized in the customization, configuration, and management of Microsoft CRM solutions tailored to corporate client requirements.

- **Frontend Development (JavaScript):** Implemented custom UI logic, customized user interfaces, and executed efficient data retrieval via Fetch and OData queries.
- **Backend Development (C#):** Executed database queries, built robust server-side business logic, developed custom plugins, and created automated background console applications.

## TECHNICAL SKILLS

**Enterprise & Integration:** SAP Integration Suite (Advanced), ABAP 7.40 (Intermediate), Microsoft CRM (Intermediate)
**Backend & Core:** Java (Advanced), JavaScript (Advanced), C# (Intermediate), NodeJS (Intermediate), OOP (Advanced)
**Databases & Tools:** SQL (Advanced), Git / GitHub (Advanced), Docker (Intermediate), HTML5 / CSS3 (Advanced)
**Languages:** English (Advanced), Spanish (Native)

## EDUCATION

**Software Engineering** — **August 2017 - Present**
Universidad de Buenos Aires (UBA)

**Backend Development Career** — **July 2025 - September 2026**
CoderHouse, CABA

**Side-by-Side Course 4.0 Full-Stack** — **August 2021 - December 2021**
Ministerio de la Ciudad de Buenos Aires, CABA
